## **EXECUTIVE SUMMARY**

This project paper is part of the course requirements in order to complete the Bachelor in Business Administration (Finance).

This paper entitled **“Islamic Evaluation of BIMB Performance in relation to the Conventional Banks”**. The main objective of the study is to evaluate the performance of BIMB for the past 5 years.

There are 4 aspects of main activities of BIMB will be covered that is the growth of its deposits and total assets, its profit and the returns to financing and usage of funds and lastly how it discharges its social obligation as an Islamic Bank.

Every Islamic Principle applied in Islamic Banking are being explained under the Banking Operation including the Islamic Banking Products.

The results of the study shows that BIMB are performing although at their development stage. One of the MOST crucial role of BIMB is to educate the society towards the understanding of their products.

Also, BIMB is mainly concern on their competitors in implementing Malaysia as a dual banking system.

Overall, we can proud of having Bank Islam as a complement to the conventional banking and moving towards their corporate mission to serve the social obligation of Malaysian society.
